

AUTISM HOPE

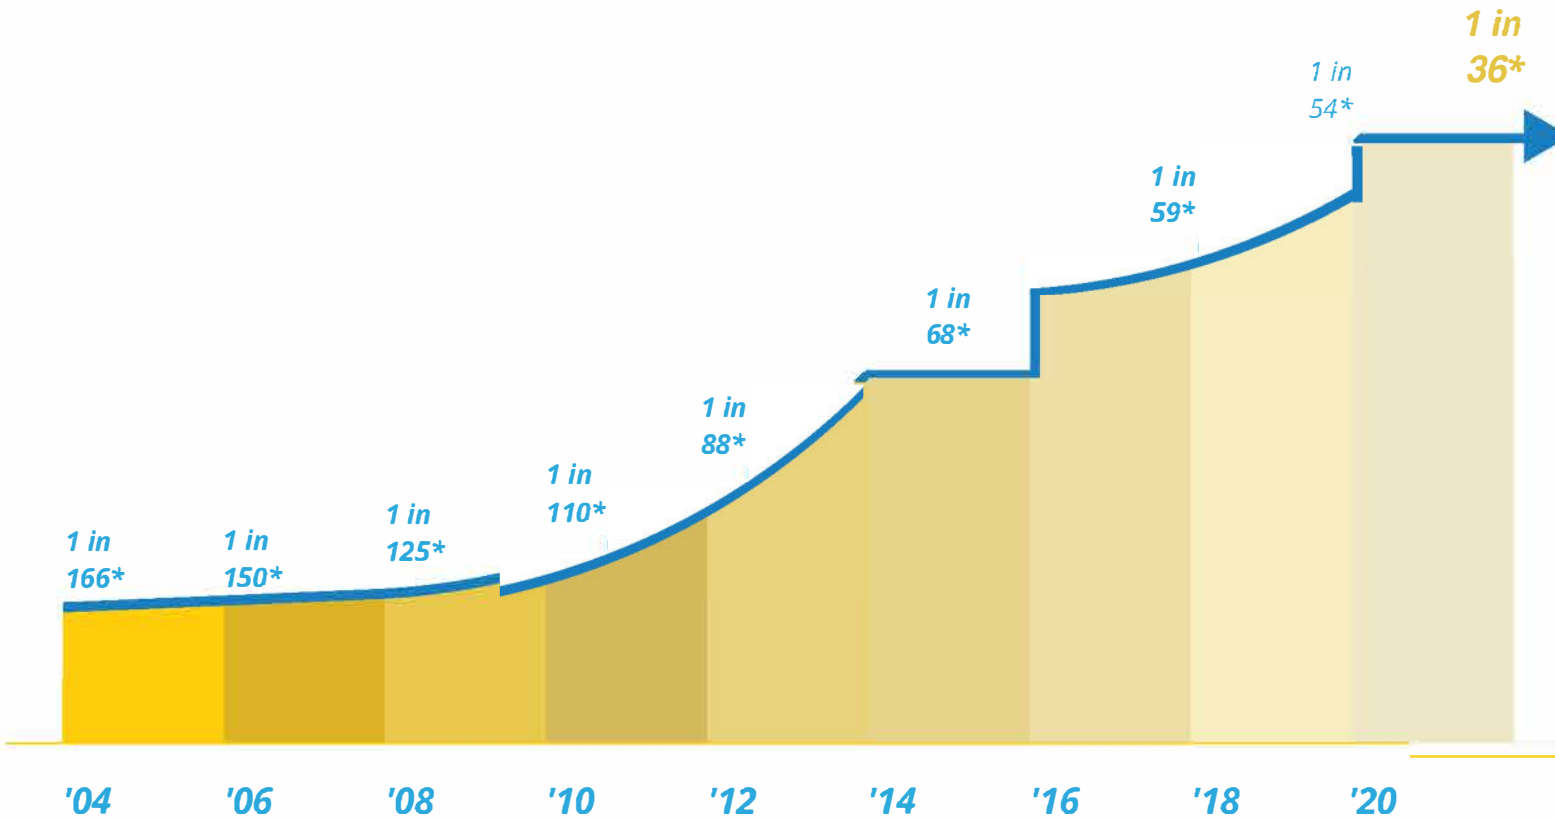

ALLIANCE

Providing Hope and Help for Autism Families Today

- The Autism Hope Alliance embodies hope for families facing the diagnosis of Autism through education, financial support and volunteerism. The Autism Hope Alliance is the first non-profit foundation for Autism to emerge from the natural foods industry.
- Connecting the Natural Products Industry with the Autism Community.

Changes in Prevalence of Autism Spectrum Disorder

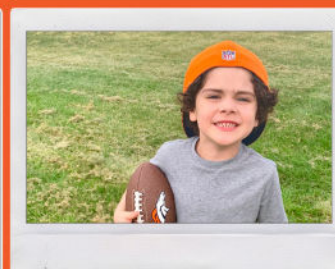

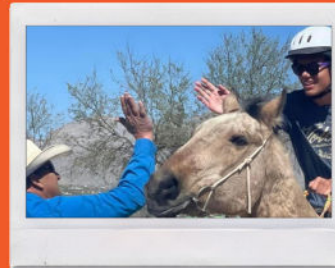

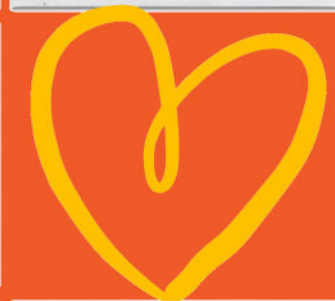

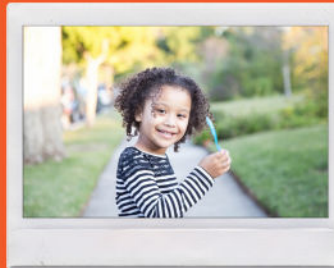

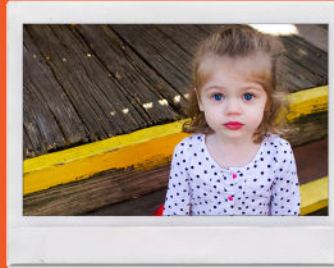

More children are diagnosed with autism each year than with juvenile diabetes, AIDS and cancer combined.*

“With rising Autism statistics, there is an urgent need for companies to take action and support families who face this enormous challenge.”

Tom Bohager, Founder
Autism Hope Alliance

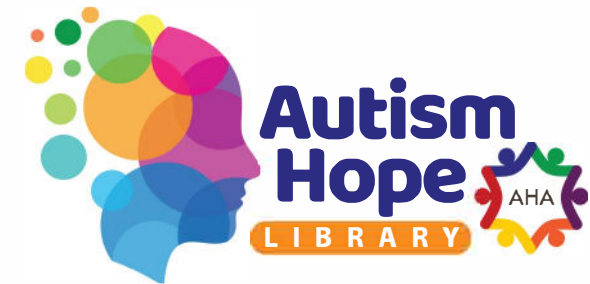

Autism Approved Program

A partnership program that we developed to raise dollars, bring awareness, create standards and ensure companies do their due diligence by being socially responsible to our community.

Since 2008, the Autism Hope Alliance has helped give education, resources and spread HOPE to over 75,000 families through lectures they have given, educational videos AHA has produced and the conferences they have attended.

AHA 2024 Programs

Autism Hope Library provides education for families with weekly educational videos. Library card memberships are free for all that sign up.

Autism Hope Alliance's Free Sample Program opens up quarterly for families to sign up for free products, coupons and education directly from the AHA Partners. It is how AHA connects families to the Natural Products Industry.
